**A Bad Accident.**  
BLACK RIVER FALLS, Wis., Jan. 19.—A bad accident occurred at Shepards, on the Omaha road 5 miles south of this city, to the St. Paul express from Chicago known as No. 2, yesterday morning, at 9:15 o'clock. A broken switch threw the passenger, sleeper and dining car from the track, the sleeper being thrown on its side in the ditch. Nine passengers were in this car, and were taken out through the broken windows, and with the exception of three or four, miraculously escaped serious injuries.

**Wreck of a Fast Mail Train.**  
NEWTON, Kan., Jan. 19.—The fast mail train on the Santa Fe was wrecked here at 1:30 yesterday morning. A switch rod broke on the engine passed, allowing the rails to spread. No one is to blame for the accident. W. J. Jones, formerly private secretary to Senator Taylor, was the mail agent, and received a painful but not fatal injury. The mail car was thrown across the track and turned over on its side. The baggage and smoking cars left the track but remained right side up. The passengers hardly realized that a wreck had taken place.

**FIFTY-SECOND CONGRESS.**

(First Session.)  
WASHINGTON, Jan. 19.—The vice-president laid some departmental documents before the Senate.

The secretary of the treasury, replying to a resolution of the Senate calling for the production and correspondence of the board of supervising inspectors of steam vessels, said that the whole correspondence, with two exceptions (which he now supplied), was included in the appendix to the printed report of the board, which is now issued. In response to the resolution of the Senate respecting alleged defalcation and fraud in the construction of the Senate building, reported that the committee on the subject had been organized, and that the committee would report on the subject at an early date. There were some suggestions that the committee should be organized at once, and that the committee should be organized at once, and that the committee should be organized at once.

Mr. Wilson (Ill.) from the committee on the judiciary reported favorably Senate bill fixing the terms of holding the district and circuit courts of the state of Iowa.

By unanimous consent the bill was taken up and passed.

Mr. Colquhoun, from the committee on claims, reported favorably a bill for the relief of the New York and Lake Erie Railroad Co.

Mr. Bullitt (W. Va.) reported favorably, with an amendment, Senate bill resolutions directing the secretary of the treasury to pay to the state of West Virginia its proportion of the direct tax refund.

Also, from the committee on the District of Columbia, a bill to punish the carrying and selling of deadly weapons in the District of Columbia.

Mr. Vest, from the committee on commerce, reported favorably a general act authorizing the construction of bridges over the Missouri, Mississippi and Ohio rivers between certain points on the respective banks and islands of the same.

A bill of new bills was introduced directing the secretary of state to send to the Senate as a preliminary step to all agreements made with other countries relating to the change of commerce under section of the McKinley bill; also, to furnish the Senate with all information received as to the practical effect of such agreements.

**The War Cloud Growing.**  
WASHINGTON, Jan. 19.—The war cloud, which a week ago was no larger than a man's hand, now envelops the United States. A decided change has come over officials in the two departments. They are less reticent. The events of the past few days have stirred them up and they are now displaying a hostility by Chili towards our sailors and officers has changed the feeling of our government to one of contempt for their petty insults.

Secretary Tracy's office is the scene of bustling activity, bureau officers coming and going all day. A number of documents are being prepared by the bureau of navigation, a very positive but extremely conservative of floor, said: "It looks warlike this morning."

Secretary Tracy's office is the scene of bustling activity, bureau officers coming and going all day. A number of documents are being prepared by the bureau of navigation, a very positive but extremely conservative of floor, said: "It looks warlike this morning."

The seeming puerile action of the Chilean minister of foreign affairs in connection with the refugees on board the Yorktown and the action of the Yorktown in connection with the refugees on board the Yorktown, has been the subject of much comment among members of Congress yesterday, and many remarks made in the Senate.

From interviews held by a representative of the United Press today with prominent Congressmen, it is learned that the controversy will enter into the foreground in the house. "Patriotism not politics" will be the motto of every man on the floor, whether he be in favor of war or against it. Interest is gaining as Wednesday approaches, for Wednesday is the day the correspondence in the Chilean matter is expected at the Capitol.

"We may make history on that day," said a member of the house yesterday afternoon, and the significance of his remark was understood and felt by a number of other members who consider the situation one of extreme gravity, and are a little anxious as to the result, particularly in view of the fact that the effect may be if they vote on the wrong side on any radical question that may be brought up.

"I was brought up among Quakers," said one of our Senators, "and I have been strongly opposed to any war, but I do not care to be quoted on the subject, for the war is a serious question, and I may swing round to the side of the fighters, not because I am anxious to be on the winning side, but because I have heard there seems to be no way of upholding the honor and dignity of the 'Stars and Stripes' except by declaring war. The sentiment in favor of war is growing."

**May Be War.**  
WASHINGTON, Jan. 19.—The report is in circulation again that the difficulty with Chili will be decided by arbitration, but the authority for it could not be learned. It is said, however, to be good. The programme is said to be to have an outside power, presumably England, to offer her services as arbitrator.

Mr. Cummings, of New York, said: "I am in favor of a war with Chili, and I have heard that the House will be divided on the question of whether to go to war with Chili. I am in favor of a war with Chili, and I have heard that the House will be divided on the question of whether to go to war with Chili."

Congressman Morse, when asked what he thought of a war with Chili, said he thought it would be a great mistake to go to war with Chili, and that he would not support it.

Mr. Wm. O'Brien suggests that the whole question of Mr. Belmont's and his own relations with the late Mr. Parrell shall be submitted to the arbitration, and that he will not support it.

A TRAMCAR AND THE TRAMCAR.—A trolley car, on its way to the Grand on Friday evening next, by Charles Frohman's popular play, has proved a success by its increasing popularity wherever played. It fully demonstrates the demand for legitimate fare even by its extra-destination to the much prevailing taste for rough and tumble fare of the horse-play style.

Comedy of the Opera-To-Night.

Willard Spencer's "Little Tycoon," with its great company and orchestra, will be seen at the Grand Opera house to-night. The cast is headed by the finished comedian and original "General Knickerbocker," R. E. Graham. Another member of the company is Joseph Menley, the creator of the part of "Feldy," who has the record of never having missed a performance during the opera-house run of three years at Philadelphia on the road. The charming prima donna, Laura Miller, in "The Tycoon," is said to be as clever as she is pretty. Robert Donah, the original, in the "Afro Barry," George H. Broderick in the "Rafus," and J. W. McElroy in the "dudish 'Lord Dolphin.'" "Miss Harriette" will be portrayed by Marcelina Baker, who is said to be a charming comedienne.

## DEATH OF "MOTHER FURDY."

Found on a Sofa in the Butterworth Tailor Shop—Coroner Bendure in Charge.

At about 12:30 this afternoon Coroner Bendure was called by telephone to come to the Tom Butterworth tailor shop in the basement under the Deatur National Bank, and take charge of the body of a woman who had died there at some unknown hour last night or this morning.

The deceased proved to be Mrs. Annie Purdy, the elderly English woman, aged 60 years, who has been a familiar figure on the streets of Deatur during the past six or eight years. How long she had been dead no one seemed qualified to tell accurately. Tom Butterworth was in the shop, but he was more or less intoxicated, and neither the coroner, nor the Republican reporter could get a satisfactory statement out of him. It was learned, however, that the woman had been suffering with the grip and that Dr. Farmer had attended her. The young man in charge of the steam heating apparatus for the building knew that the woman had been sick and that she had hoped to get strong enough to go into the country. The body was in a slightly decomposed state, giving rise to the belief that the woman had died some time during the night, but Tom insisted that she had died at about 2 o'clock this afternoon. While Coroner Bendure was going from the shop a few minutes, by order of W. A. Holmes, owner of the room, Undertaker Brindlinger came and recovered the body to his place of business and when the coroner was seen he was anxious to learn if he could be the owner of the business for which the woman was the undertaker. The coroner then decided whether he would hold an inquest or not. It was in his way at 2 o'clock to find Dr. Farmer, who had gone to the northern part of the city on professional business. Mrs. Purdy was a seamstress and was a helper for Butterworth. Some years ago she married Simon Selts, but obtained a divorce and some money. She was the mother of Mr. Purdy there. She was married to a woman, who was somewhere in America. She was never able to locate them. Mrs. Purdy, as she was better known, was a corpulent woman, who indulged freely in the use of intoxicants and had been frequently seen going in and out of saloons. She was last seen in the street Saturday night. Mrs. Purdy had personal effects of some value in her room on Merchant street. Overseer Holman will place her estate in charge of the public administrator, Albert Barnes.

A TOWN OF WIGT.

The snow which began to fall Sunday evening at 7 o'clock continued for nearly thirty hours, the fall averaging seven inches. While the prospect for good sleighing was never better, yet the uncertainty would have been a great deal of suffering in the poor and great inconvenience many others. The first tradesman to profit by the cold weather, accompanying the snow was the plumber, as the water pipes in many houses burst by reason of the water freezing. The snow fell all day yesterday and the streets were almost impassable last night and pedestrians encountered great difficulty in passing through the snow. The only truly happy person was the school boy. He had his sled out and was accepting every opportunity for a ride. Dispatches from all over the state state that it is the heaviest snow fall of many winters, at Hillsboro it is two feet deep at Cerro Gordo, ten inches, at Tamaul, twelve inches and so on all over the state. At Quincy the thermometer has dropped to five degrees below zero and the houses are harvesting trees and fourteen inches of ice on the bay and river. At Springfield and Bloomington, as well as other towns where street railways are operated, the traffic has been almost entirely suspended by the heavy fall of snow.

A Banquet Surprise.

The trip's link brethren of Celestial Lodge No. 130 held their regular meeting last night at Celestial Hall, and with a large attendance transacted routine and special business. Just before dismissing the Noble Grand announced that a committee of ladies desired to address the lodge, and they were admitted to extend a formal surprise invitation on behalf of Progress Lodge 141, Rebekah Degree, to the Celestial members to repair to the banquet hall and partake of the feast prepared for them. The invitation was unanimously and enthusiastically accepted. It was a great feast and was highly enjoyed. The Grand Master made the speech of the evening and was a ball of 1885 and all were happy. The ball of 1885 of the occasion were white cards inscribed, "Compliments of Progress Lodge No. 141, B. D.—1892."

Strayed.

A bay horse, hitched to a cutter, ran away last evening on North Water street, and nothing has since been heard of either the horse or cutter. The rig belonged to W. H. Grindol, and the animal standing while he went into a grocery store. Just as he was returning to the sleigh, the horse started and ran south on Water street. In the sleigh were three large fur robes, besides a horse blanket. Any information will be gladly rewarded at W. H. Grindol's marble works on East Main street.

Delayed Trains.

All incoming trains were delayed today by the heavy snows throughout the state. The P. D. & E. passenger, going north, due here at 6:55 a. m., had not reached here at noon. The T. H. & P. passenger, due here at 11:30, was one hour and thirty minutes late. No. 44, Wash passenger from Springfield, was twenty-five minutes late, and No. 44, Wash passenger from St. Louis, was also twenty-five minutes late, and No. 4, Wash passenger from St. Louis, was one hour and five minutes behind time.

## ANXIOUS FOR THE FRAY.

The Illinois National Guard Would Like to Fight Chille.

The State Could Furnish Four Thousand Trained Men on Brief Notice, and the United States 100,000.

The men and officers of the Illinois National Guard are highly elated over the prospect of war with Chille and the consequent prospect of the military force of this state being called upon for active service. Adj. Gen. Reese, for some time past, has been receiving letters from about all of the regimental and company commanders tendering their services in case of trouble. It is a safe conclusion that in case of an appeal to the federal states by the National Government for troops there would be a hearty and enthusiastic response from this state. The Second Regiment soldiers have been particularly anxious for a fray. Gen. Reese was in Chicago a few days ago and he found considerable excitement among the soldiers of both regiments there.

"The entire military force of the state," said Gen. Reese yesterday, "is thoroughly awakened, and every militiaman in this state would go to the front with a will. I think it safe to say that the National Guard of Illinois will rank, in point of efficiency, with the regular army of the United States."

The adjutant general has not been communicated with by the national government, probably for the reason that he has just made his annual report to the government, and it contains all the information which he could furnish in any other way. The report shows that the National Guard of Illinois is composed of six regiments of infantry, two batteries and two troops of cavalry, in all aggregating 4,000 men, splendidly equipped, thoroughly trained and disciplined, and ready for active service at any time. Gen. Reese thinks that the government would hardly open war with Chille or any other foreign power with less than 100,000 men. That is about the number in the National Guard of the entire country, and it would be much cheaper, in the adjutant general's opinion, for the government to use the men already drilled to train to establish camps and attempt to drill an army of untrained volunteers. He does not think that over 10,000 or 15,000 men of the regular army would be available to equip their muskets and go to the front, so that the government would have to depend almost entirely on the National Guard of the country.

A Close Call at Macon.

Last Saturday morning at Macon as the 9 o'clock train was moving out Mr. J. S. Tait came very nearly losing his life. Mr. Tait lives one-half mile east of Macon and he was going to Deatur, did not get to the depot before the north-bound passenger train began to move out. As his horse he attempted to board the train. He got hold of the railing on the hand hold, but his feet slipped from under him and he was dragged about 200 feet before the train could be stopped. The brakeman then happened to see him or he would have been thrown under the train and dashed to death. Fortunately he escaped unhurt.

Off the Track.

The Citizens' company had an electric car off the track last evening at 5:30 o'clock at the Baldwin crossing on West Main street, and it took all the men that could be had and the full power of the restitute to get it on the rails. At one time there were four cars missed at the switch. It was a great trial to the car company managers and the people, but in good time the obstruction was removed and the cars shot ahead to make something like schedule time. It was the worst day for the electric cars since the new power was adopted. Frequently through the day pedestrians got funny and called out: "Send for the mules."

The Committee is Out.

The following committee has been selected by the Christian church congregation to sell the present church property, buy a new lot and put up a modern edifice: Messrs. B. O. McFarland, Geo. R. Bacon, F. M. Pratt, John Ullrich, L. B. O. Lettingwell, Jessam Letorgue and P. A. Letorgue. The chairman of the meeting was Rev. E. B. Calk.

The congregation is united in the efforts now being put forth to get a new church, and the prospects are that the Christian church people will have their wishes gratified at last.

Young Dr. Miller Goes Crazy.

Dr. James M. Miller, one of the most prominent young physicians of Bloomington, became violently insane Sunday night, and yesterday it became necessary to place him in custody. His case will be considered in the county court to-morrow. Dr. Miller about three weeks ago graduated from Dr. Lapham's sanatorium at Dwight after a long treatment for alcoholism and the use of opium. He has been in broken health ever since.

Another Stock Company.

E. L. Martin has formed another stock company to make cement walks. It is located at Carlinville, with a capital stock of \$2,000. Interested in the company with Mr. Martin are E. V. Smart and J. M. Dugger, the latter a brother-in-law of J. B. Ballard, and ex-county clerk of Macoupin county. Mr. Martin has similar stock companies at Springfield and Deatur.

Does Not Want to See Him.

It is reported that Dr. Ira A. Pace is anxious to gain an interview with Miss Ada Moore, now at her brother's home in Weldon, in Deatur county. Why he wants to talk with her is a matter of speculation; but Miss Moore refuses to be talked to by the young doctor. Her health is bad and she still remains in bed under the care of another physician.

## MURDER AT PEORIA.

Domestic Tragedy—A Husband Kills His Wife—Suicide.

A terrible double tragedy occurred at Peoria last evening. About four months ago Harry Johnson of Chicago and Lizzie Lafore of Peoria, after a courtship of two years, were married in Chicago. The man seemed to be a perfect gentleman, a company in Chicago, but it was not long until he began to abuse his wife, a remarkably handsome woman about twenty years old. The poor girl endured the treatment for a couple of months, when she left him and returned to her mother, a widow, who followed; since then he has endeavored to persuade and threaten his wife into again living with him, but she had steadfastly refused, as she was afraid that he would murder her. Yesterday at noon he called at Mrs. Lafore's house while his mother-in-law was absent, but Lizzie barred the doors and refused to admit him. He returned again at night while the family was at supper and walked in, sat down, and began to converse with his wife. Mrs. Lafore did not suspect there was murder in Johnson's heart, and had gone down into a room on an errand, the supper room being upstairs, when she heard three pistol reports in rapid succession. She hastily ran upstairs and found her daughter lying in a pool of blood in one corner, while Johnson lay in another. He had shot his wife once through the arm and once through the temple and then shot himself through the temple. Neither lived more than an hour.

BLAINE SICK.

SPECIAL TO REPUBLICAN.

WASHINGTON, D. C., Jan. 10.—Secretary Blaine was taken suddenly sick with nausea at the cabinet meeting to-day and had to leave. He was taken to his home in a carriage, attended by his physician. The secretary's condition excites alarm.

Collars, Not Breast Straps.

The greater part of the horses that were yesterday being driven to slaughter and cutters were obliged to draw their oftentimes heavy loads by means of narrow breast straps, instead of by collars. In one instance a horse-made sled, containing five or six grown men, was pulled by a little bit of a horse, who was made to draw the vehicle by means of a narrow band that cut deeply into the horse's breast. The police party properly ordered the men to use collars instead of breast straps. The whole party, properly ordered, was well to one of the most notable matrimonial events of the winter in Deatur circles, and will bring together the scattered members of the Deatur family, including Mr. and Mrs. Bachrach of this city, the grandparents of the bride; Mr. John Bachrach and wife, also of this city; Mr. and Mrs. Bachrach, of Deatur, and other members from Deatur, Kansas City and other points. The bride is the daughter of a wealthy clothing dealer who has establishments in Chicago, Kansas City and Elgin, and a few years ago had no less than thirteen different clothing houses. Mrs. John Bachrach is now in Chicago assisting in the preparations. —Bloomington Post-Tribune.

To be Married in Chicago.
